BERRY'S INDIAN BILL.

How it Proposes to Reorganize Indian Territory.

A Complete Territorial Government Scheme is Proposed.

LANDS TO BE DIVIDED.

Laws of Arkansas to be Patterned After.

WASHINGTON, Dec. 6.—The bill introduced in the senate yesterday by Senator Berry, to provide a temporary government for the portion of the Indian territory occupied by the five civilized tribes, provides that a territory shall be formed to be known as the territory of Indianola. Among the first provisions made is one to the effect that any time in the future the boundaries may be changed or any portion attached to any other state or territory by the action of congress without securing the consent of the inhabitants of the new territory. The bill provides for a governor and a secretary for the territory, a delegate to congress and a legislative assembly, the latter to be composed of a council and house of representatives, the council to consist of twenty-one members and the house of forty-two, the sessions to be held biennially and to continue for six days. The territory is to be divided into twenty-one counties.

All male citizens of the United States who are actual residents and over 21 years of age are to have the right to vote, as are also male Indians who are citizens of any tribe in the territory. It is provided that no law shall be passed by the legislature interfering with the primary disposal of the soil or with the titles of the Indians of the various tribes or their manner of holding the same. Indian homesteads are made inalienable and are exempted from taxation.

The bill provides for a complete judicial system, and adopts a large number of the laws of the state of Arkansas. All provisions of treaties heretofore made by the United States with the civilized tribes, except so far as the treaties relate to land titles, are abrogated and repealed, and all governments established by the tribes abolished. The lands now held in common by the several tribes are to be divided in severalty among the members of the tribes, each to have a homestead of 160 acres, and after this division the residue is to be sold and the proceeds to be divided among the Indians.

The twenty-one counties provided in the bill are to be numbered until the first general election, when the people shall vote on the names. The counties are at present fixed as: South McAlester, Aukla, Oak, Lovelock, Tallahas, Wheelock, Antlers, Tishomingo, Stonewall, Ardmore, Wynnewood, Duncan, Chickasha, Nowata, Claremont, Tablequah, Muldown, Muskogee, Sapulpa, Wewoka and Choctaw.

The town of South McAlester is made the capital of the new territory.

The United States attorney and United States marshal shall each receive \$5,000 per year, the clerk of the supreme court \$3,000 per year, and the clerks of the district courts, \$1,800; the governor, \$4,000; the chief justice and associate justices, \$3,000 each and the secretary, \$2,500; the members of the legislature to receive \$6 per day; \$2,500 to be appropriated to defray the contingent expenses of the governor.

Five years' imprisonment and \$500 fine is provided for anyone introducing intoxicants into the territory.

FORGED MORTGAGES.

A Wichita Man Makes a Sensation by Confessing to Forgery.

WICHITA, Kan., Dec. 6.—A. J. Crow, an ex-notary public, created a sensation in court here yesterday by confessing to the forgery of mortgages, and his father guilty of acknowledging the fictitious signatures. The case on trial was that of Thompson & Bland, importers of horses, of Frankfort, Ind., against Coy & Fowler, a suit to recover some valuable horses which the Frankfort men traded for these alleged fraudulent mortgages. Large numbers of these mortgages were made out three or four years ago, and the papers taken East and traded for horses, about \$25,000 worth of horseflesh being secured from parties in Texas and Illinois. Daniel Wrenn, one of the men, was sentenced last summer to ten years in the penitentiary for his share in the transaction, and J. R. Hazard, president of a bank at Sedgewick City, lately brought back from Plymouth, N. H., on a charge of being in the deals, was bound over at his preliminary trial. Some sensational arrests growing out of the confession of Crow are expected.

INTER-STATE COMMERCE.

National Commission Presents Its Eighth Annual Report.

WASHINGTON, Dec. 6.—The Interstate Commerce commission transmitted its eighth annual report to congress yesterday. The report says it is the duty of shippers, railroad managers and citizens generally to assist the government in running down violations of the statute designed to protect their interests. It recommends that carrying corporations be indictable and subject to fine for violations of the act. The report speaks of the unreasonable freight rates from Chicago and Cincinnati to Southern points. Also of the unreasonable rates on wheat. It refers to the failure of many carriers to post their traffic as required by law. The commission explains the necessity of providing single classification of freights for the whole country, saying that experience has shown the necessity for congressional action, and supports the belief that uniform classification depends upon the passage of a statute requiring its accomplishment.

After a lengthy review of the railroad pooling bill, the report says: "We submit for the consideration of congress that pooling without other remedial legislation is unadvisable. Pooling under compulsion to be imposed by the commission and rendered capable of easy and direct regulation with accompanying effective remedial legislation we believe might safely be tried."

On the government ownership of railroads, the commission refrains from expressing any opinion. As to the financial condition of railroads, reference is made to the financial embarrassment of railroads resulting from the commercial depression and other causes. On June 30, there were 160 roads in the hands of receivers. While the financial depression has been a factor in bringing about embarrassment of railroads, it is believed that many of the receiverships were the natural sequence of mismanagement, over-capitalization and ill-advised projecting. Although the traffic has largely decreased during the year, the rates have also declined, showing that there has been unusual competition for the decreased traffic.

The commission includes in its report statistics of railroads for the year ending June 30, 1893. On that date there were 174,437 miles of line in the United States, being an increase during the year of 4,875.85 miles. The number of railway corporations was 1,800, being an increase of sixty-eight over the previous year. The capitalization of the roads reported working was \$1,825,000,000. The number of passengers carried was 593,569,612, and the number of tons of freight carried was 745,119,482. The gross earnings were \$1,220,751,874, the operating expenses \$827,921,299, leaving net earnings of \$392,830,575, which is equivalent to \$2.314 per mile of line.

The accidents of the year show little decrease on account of the use of automatic couplers, and such a result is not expected until more uniformity in such appliances has been attained. The report concludes with a summary of desirable amendments to the interstate commerce law.

To Shut Out Our Oil.

WASHINGTON, Dec. 6.—Germany has taken the initiative step towards curtailing the importation of another American product in the proposition now before the bundersrath to enormously increase the duty on cottonseed oil. The proposition is to increase the present duty, which is 21, to \$2.50, equivalent to a duty of 250 percent, and as the proposition is supported by the agrarian and protectionist industrial parties, there can be little doubt that it will succeed. The subject is treated at length in a report to the state department by United States Consul Merritt at Bremen.

VEST WANTS CHANGES

Says the Senate Rules Should be Remodeled.

The Present Ones He Declares Are Inefficient.

MR. PEPPER SCORES.

His Bond Issue Resolution Passes the Senate.

WASHINGTON, Dec. 6.—In the senate yesterday, Mr. Vest of Missouri spoke on the need of a change of the senate rules. He modified the form of his previous resolution so the committee of rules is to report by December 15 a plan for closing debate. Mr. Vest said he had formerly opposed cloture, but he was now convinced cloture was inevitable, and that it should be effected as soon as possible. The question was immediately understood, having been debated for years, so that the senate was in a position to act at once. When the senate numbered forty members there was no need of cloture, but with the senate increasing so that its membership would soon reach 100 it was imperative necessary to have a rule bringing debate to a close. In reality the present rules stifle debate. Senators will not debate a question when they recognize the hopeless opposition under which they labor. These rules encourage parliamentary buckram, and the senator, under the deliberate threat that if they are not accepted an indefinite opposition will be inaugurated. The senate had been brought into public disrepute by its rules. It was popularly regarded as impotent and unable to perform its functions of legislation. Bills of vast public interest lingered here until they were dead, and the people were weary and disgusted with the spectacle of a powerless senate. Even when the bills passed after such a contest they were so discredited as to have no moral support from the public.

Mr. Vest said he had no ulterior purpose of securing the advancement of the separate tariff bills. He would vote for these bills. But in the present case his only object was to secure cloture, a measure which was essential and inevitable.

Mr. Harris, Democrat, Tennessee, added his opinion in favor of a change of rules. But he suggested that the absence from the city of the chairman of the committee on rules, Mr. Blackburn, made it unwise to compel a report of a form of cloture by December 15. Mr. Harris said he would undertake to promise that some such resolution would be reported soon after the return of Mr. Blackburn.

"I understand," said Mr. Aldrich, Republican, that this new rule is not to apply to legislation of this session, not to the pending tariff bills."

"It applies to everything," said Mr. Vest.

"If this new rule is adopted," asked Mr. Allen, populist, Nebraska, "will Republicans be made to convert presidential legislation on the lines of the president's message?"

Mr. Vest said he was not authorized to state what would be done in that regard.

In order to terminate the random discussion Mr. Harris moved to go into executive session.

Mr. Ransom, Democrat, North Carolina, secured recognition to present the credentials of Patrick Walsh, re-elected as senator from Georgia. An arm in arm Messrs. Ransom and Walsh went to the desk of the presiding officer, where the oath of office was administered. Mr. Vest gave notice he would renew his motion in behalf of the resolution to-day.

Mr. Pepper of Kansas then secured the floor for a long carefully prepared speech, which he read from printed sheets. It referred to his resolution calling for information as to the action of the secretary of the treasury in issuing bonds and arranging public officials for perjury and usurpation of authority.

At the close of Mr. Pepper's speech the resolution was adopted without division. It asked the judiciary committee to inquire into the action of the secretary of the treasury in issuing bonds.

Referred to the Judiciary Committee.

WASHINGTON, Dec. 6.—The attendance on the floor was again small when the house met. Immediately after the reading of the journal Mr. English of New Jersey asked unanimous consent for the consideration of a bill, but Mr. Sayers of Texas, objected, whereupon Mr. English promptly objected to a resolution offered by Mr. Blair of New Hampshire, calling on the president to furnish to the house, if not incompatible with public interest, all correspondence telegraphic and otherwise between this country and China, relating to the war between China and Japan. The resolution went to the committee on foreign affairs. Mr. English then demanded the regular order of business.

In Pursuance to a Rule Presented by the Rules Committee.

The resolution was taken up and Mr. Patterson explained at length the general purpose of the bill. At 5 o'clock house adjourned with bill still pending.

Schaefer Not In It With Ives.

CHICAGO, Dec. 6.—Schaefer met defeat for the third time last night, and is now so far behind that it seems impossible for him to win out. He could only succeed in making 474 while Ives ran his 600 and the latter has the ball, after making a run of 281, which enabled him to finish the game. Ives' total is 1,600, against 1,043 for Schaefer.

NEW BANKING BILL.

Conference of the House Committee Regarding Carlisle's Plans.

WASHINGTON, Dec. 6.—An important conference of most of the Democrats of the house committee on banking and currency was held after the adjournment of the house yesterday as a result of which early action looking to the reporting of a banking bill in line with the scheme presented by Secretary Carlisle in his message was taken. Chairman Springer said that Secretary Carlisle has intimated a desire to appear before the committee himself and has suggested the names of several persons whom it may be well for the committee to call for the purpose of hearing their views. Among the names in the list furnished by Mr. Carlisle were those of ex-Secretary Fairchild, Horace White of the New York Evening Post; Mr. St. John of New York and Geo. A. Butler of New Haven, Conn. The members present decided to hold a meeting of the full committee on next Friday when a resolution will be offered providing an invitation be extended to Mr. Carlisle and Mr. Eckles to appear on Monday and Tuesday, respectively, and the other gentlemen to appear on the remaining days of the week.

BATTLE WITH OUTLAWS.

One Deputy Marshal Fatally Wounded—Shot Through the Body.

TOLEDO, Ind. Ter., Dec. 6.—A fight occurred between Deputy Marshal Williams and posse and Buzz Luckey and Tom Roots, Creek Indians, and William Smith, a Cherokee negro, at the cabin of Lizzie Lola, twelve miles southeast of this place, yesterday. The outlaws were hidden in a haystack and the marshals, supposing them to be in the house, surrounded it, thus placing themselves at a disadvantage. LaForce, a deputy, was shot through the body and mortally wounded. The outlaws escaped and the deputies, after being reinforced by Dick Thomas and posse, are now in pursuit. These men are supposed to be a part of the gang that held up the Missouri, Kansas and Texas train at Blackstone, near Muskogee, some time ago, and possibly are connected with the Cook gang.

The examination of witnesses began this morning, a jury having been secured yesterday.
